PROFESSIONAL SUMMARY

Computer Science graduate and **Data Analyst** with hands-on expertise in **Excel, SQL, Python, and Power BI**. specialized in the full analytics cycle, from cleaning and modeling data to delivering interactive dashboards that drive business decisions. Committed to building accurate, reliable, and scalable data solutions with a solid foundation in **data warehousing, data modeling and ETL fundamentals**.

EDUCATION

Ain Shams University

Cairo, Egypt

Bachelor of Science — Computer and Information Science

2020 – 2024

Relevant Coursework: Algorithms & Data Structures, Probability & Statistics, Databases, Software Engineering, Design Patterns, System Analysis & Design, Software QA

Note: Completed mandatory military service obligation (July 2024 – December 2025) immediately following graduation.

PROJECTS

SQL Data Warehouse & Advanced Business Analytics | SQL Server , T-SQL , Star Schema , Medallion Architecture

- Designed and implemented a Medallion (Bronze–Silver–Gold) data warehouse, structuring raw data into analytics-ready layers
- Built a star-schema data model enabling efficient reporting for customer segmentation and product performance
- Developed ETL pipelines using T-SQL, including data cleaning, deduplication, and validation checks to ensure data consistency
- Created analytical queries (CTEs, window functions) to calculate KPIs such as customer lifetime value (CLV) and month-over-month growth
- Delivered business-ready datasets and reports to support sales and customer analytics

E-Commerce Sales Performance Dashboard | Python , PostgreSQL , Power BI , DAX

- Engineered an end-to-end analytics pipeline for a dataset of 116K+ transactions, resulting in a comprehensive revenue dashboard totaling ₹78.29M
- Developed a Revenue Fact Table using Python, implementing strict business rules to exclude cancelled orders and invalid quantities, ensuring 100% data accuracy for reporting
- Validated data accuracy through SQL reconciliation queries before dashboard deployment
- Designed an interactive Power BI dashboard featuring 6+ visuals, enabling stakeholders to drill down into fulfillment methods (Amazon vs. Merchant), regional performance, and B2B vs. B2C sales ratios

Retail Sales Analytics Dashboard | Excel Power Query , Power BI , DAX , Star Schema

- Cleaned and transformed multi-source retail data using Power Query
- Built a star-schema model integrating sales, customer, product, and geographic data
- Developed KPI measures including Revenue, Profit, Profit Margin %, and AOV
- Designed a 3-page dashboard with executive KPIs, geographic insights, and time-based trends

AI-Powered Mental Health Chatbot Platform | Flutter , Python , LangChain , Llama 2 , Generative AI

Graduation Project | Team of 6 | Psychologist-Approved

- Co-developed a Flutter cross-platform application integrating a rule-based diagnostic chatbot (psychologist-validated questionnaires for PTSD, bipolar disorder, and depression) and a generative AI agent powered by Llama 2 and LangChain
- Designed end-to-end product features including personalized mental health plans, interactive questionnaires, and peer-support group functionality — shipped as a complete, psychologist-approved application

TECHNICAL SKILLS

BI & Visualization	Power BI (Data Modeling, DAX, Time Intelligence), Tableau, Excel (Power Query, PivotTables)
Data Modeling & Warehousing	Star Schema, Snowflake Schema, Medallion Architecture, Semantic Layer Design
Languages	SQL (T-SQL, PostgreSQL), Python (pandas, NumPy)
Data Engineering	ETL / ELT Pipelines, Data Cleaning, Data Validation
Databases & Tools	SQL Server, PostgreSQL, Git, GitHub, SSIS (Fundamentals), Informatica (Basics)
Analytics	Exploratory Data Analysis (EDA), KPI definition, customer segmentation, cohort analysis, Data Visualization

CERTIFICATIONS & TRAINING

- Associate Data Engineer in SQL – DataCamp, 2026
- Google Data Analytics Professional Certificate — Coursera, 2024
- Excel Skills for Business Specialization — Coursera, 2024
- Data Analyst Bootcamp — Alex the Analyst, 2023
- Machine Learning Specialization (Andrew Ng) — Coursera, 2024

LANGUAGES

Arabic — Native **English** — Full Professional Proficiency (C1)
